

Avviso di Seminario

**April 28, 2022
8.30-10.30, Room ADI1**

**Master Degree in Computer Engineering
Master Degree in Cybersecurity**

Malware analysis

Francesco Mercaldo

**Assistant professor
University of Molise, Italy**

The seminar will provide an overview of the different malicious families in mobile environments. Methods and tools will be presented for malware analysis in Android, in particular case studies of dissecting malicious code in the real-world are discussed. Moreover, frameworks for the automatic generation and for obfuscation of Android malware will be shown.
